International Journal of Pharmaceutical and Phytopharmacological Research (eIJPPR): Volume-1, Issue-3 (November-December 2011)

First of all I would like to wish all the members, authors, readers of eIJPPR and their families a very happy and prosperous *New Year 2012*.

It is pleased to inform you that the third issue (volume-1) of “*International Journal of Pharmaceutical and Phytopharmacological Research (eIJPPR)*”, is available online as well as in printed form and wishes to receive your support all through the course of its journey.

eIJPPR is a bimonthly peer reviewed open access journal indexed with well known scientific databases such as *Google Scholar, Chemical Abstract Services (CAS), EBSCO, Science Central, Index Copernicus, Directory of Open Access Journal(DOAJ), Pharmaceutical Science Open Access Resources (PSOAR), Ulrich’s International Periodical Directory (USA), Open J-Gate, Get Cited and New Jour*.

eIJPPR was launched in the month of August-2011 with an objective to motivate pharmacists and related professionals for quality research and innovation and to support every effort to empower pharmacy education and research. The journal is growing in stature with every issue with critical acclaims and encouraging reviews. The previous issues have set the tone and tenor for the present and forthcoming issues.

I must laud the efforts of our esteemed editorial team members and reviewers who have devoted their precious time in critical review of the manuscripts submitted to journal. Without their support we would not have been able to publish quality papers in the eIJPPR.

I close this piece with renewed solicitation to pharmaceutical and related professionals, researchers, scientists and scholars to contribute quality research and review articles on topics of current interest and provide an opportunity to eIJPPR to disseminate their ideas and innovations to the scientific community across the globe.

Thanks.

Mrs. Anjali Pawar,

Editor in Chief,

International Journal of Pharmaceutical
and Phytopharmacological Research (eIJPPR),
